## DINIS LUCAS & ALMEIDA SANTOS – REGISTERED THE TRADEMARK “BOUTIQUE LAW FIRM”

In an era of mass legal transactions, the bet of the Law Firm was customization.

Without, however, refusing to grow, it sought a sustained growth capable to respond to all areas of law, but prioritizing the direct and personal contact with the client, extolling its individuality and offering a customized service.

The Law Firm assumed itself, therefore, as an authentic **Boutique Law Firm**, through a network of specialized lawyers based on a wallet share strategy, focused on its Clients and their needs, seeking to be, at every moment, the natural choice for a cross solution on their problems.

We don't want to be universal, we aim to be unique. We don't want to be massive, we aim to be unmatched.

We are at the forefront in respect to the quality of our team and to the technical solutions we present, but choose to we keep ourselves conservatives in what concerns to the management and attention paid to every client, to each case, to each process.

This is our identity, our character, our uniqueness, and therefore we move forward with the registration of a trademark that is ours, the mirror of our attitude towards the market and of our performance.

Therefore, it is with obvious pride that we announce the registration of the trademark "**Dinis Lucas & Almeida Santos - Boutique Law Firm**". The only one in Portugal!
